CREATIVE WORKS

Moodle platform

This website was created as part of my Master's (M.Ed) thesis. It constitutes an e-course which focuses on the subject of General English at a B1/B1+ level. The Moodle course consists of five topic based units integrating the four skills along with grammar and vocabulary presentation and practice modules. It contains authentic or semi-authentic material developed by the instructor, while exploiting external resources for further practice, so as to amplify learning and teaching time in a state Technical, Vocational school in Greece.
